

The Virginia Adult Learning Resource Center is pleased to announce the release of our RSS (Really Simple Syndication) Feed. An RSS Feed is a way to distribute updated news content from our site. This is a great way to stay current on what is happening at the center and on the latest content news.

If you look on our homepage you will see a small button on the bottom-right side of the page. It's orange and has two lines and a small circle on it. If you click on this button, you will be asked to subscribe to our news feeds. To be able to read the news feed you'll be asked to pick a news reader, such as Google Reader or NewsNetReader.

Once you have subscribed to the news feed, you'll be able see updated content in your news reader.
